

ALL-OUT® SYSTEM

NEXT GENERATION OF HOPPER SILOS

Product Leadership™
for a New Feed Storage Standard

Exclusive features for ALL-OUT® silo performance

Chore-Time reinvented the feed silo with the introduction of its next generation of hopper silos. Chore-Time's ALL-OUT® Feed Management System raises a new industry standard for excellence and value. Added together, the innovative features of these feed silos provide solutions for better productivity in your operation.

Product Features

- **SPRING-LOCK®** Lid provides a positive, spring-aided closing action, yet is easy to open with one hand.
- 40° Roof matches the natural incline angle of repose for stored feed to maximize usable feed storage capacity.
- **HYDROSHIELD®** Weather Guard directs moisture to drip off the silo's sidewall and keeps it off the silo's hopper and boot.
- **ACCESS PLUS®** Hopper Access Door permits easy clean out of the silo from the ground. The Door retrofits into previous Chore-Time feed silo models too.
- Digital **WEIGH-MATIC®** Scale System uses temperature-compensated load cells to give highly accurate weights for feed stored in individual feed silos.
- Automatic boot slide actuator system automatically closes boot slide shut off on empty silo while opening second silo in tandem systems.

Product Advantages

- **SPRING-LOCK®** Lid resists wind and keeps out snow and rain. When open, the lid slides down and out of the way of a feed truck's auger.
- **SPRING-LOCK®** Lid and **ACCESS PLUS®** Door aid in bio-security by allowing remote silo opener location and by easing cleaning chores.
- **HYDROSHIELD®** Guard results in less water on silo hopper and boot.
- Automatic boot slide actuator on a tandem feed silo system helps keep birds or animals from missing a feeding.

Warranty and Service

Chore-Time's ALL-OUT® System is backed by a generous warranty and by a worldwide network of trained technical service and distributor professionals.

For the distributor nearest you, contact Chore-Time Brock International at 574-658-9323.

Optional Ladder Security Door

SPRING-LOCK®
Feed Silo Lid & Opener (patented)

HYDROSHIELD® Weather
Guard (patented)

Sturdy Ladder System includes a
convenient handrail (patented)

Optional **ACCESS PLUS®**
Hopper Access Door (patented)

Red translucent boot transition offers
highest durability and even flow

HOPPER SILOS – 40° Roofs & HYDROSHIELD®

MODEL NUMBER	CAPACITY 641 KG/M ³		HEIGHT TO FILL M
	TONS	CUBIC METERS	
1.8 meter diameter silos w/60° hopper
