

CHORE-LOGIC™ CC36 Controls

CHORE-TIME®

User-Friendly Controls

- Simple
- Economical
- Accurate

CHORE-LOGIC™ CC36 Controls

CHORE-LOGIC™ CC36 Controls offer everything you need to control your one-house or multi-house poultry complex.

- Complete Climate Control
- Data Collection
- In-House Bird Weighing
- Dual Silo Weighing
- Feed & Water Control

Control includes a state-of-the-art, multi-function micro-processor with a large graphic display and user-friendly interface. Display text can be ordered in any language. Set points can be entered from the control or from a remote PC.

CLIMATE CONTROL

- Control heating & cooling
- Operate fans, inlets & curtain winches
- Alarms
- Light dimming or dusk-to-dawn lighting
- Tunnel and minimum ventilation

Use various parameters of control:

- Temperature and temperature curves
- Weight curve for calculation of minimum ventilation
- Humidity
- Static pressure
- Wind speed meter for calculation of wind chill

DATA COLLECTION

- Gather key data points
- Transfer data to PC for analysis

BIRD WEIGHING

- Monitor up to four scales per control

FEED WEIGHING

- Weigh up to two feed silos (if load cells included)
- Batch weighing for restrictive feeding
- Weighing for feed mixing

FEED & WATER CONTROL

- Start and stop feeders
- Operate drinking systems

Total farm management is possible from remote PC.
